Total	€401.27	283	2,018	€1.42	14.0%	1

Measurement discrepancy. Google Ads conversion column recorded **0** for the whole period. D1 verified paid leads: **1**. Conversion firing is broken — no browser event and no offline upload ran. Google's bidding optimised on zero conversion data.

The verified paid lead

- 18 Aug · query **"wedding band prices ireland"** → /wedding-band-cost-ireland/
- Qualified: wedding Jun 2027, ~100 guests, Landmark Hotel, Carrick-on-Shannon
- Same couple returned 22 Aug via a **chatgpt.com referral**, requesting The Beat Boutique by name — a return visit, not a second acquisition
- Converting-campaign cost per lead: **€141.04** · click-to-lead rate: **0.35%** (1 / 283)

Top spend keywords

KEYWORD	SPEND	CLICKS
live wedding band ireland	€41.35	19
wedding band prices ireland	€41.73	18

Jun	5	3	2	0	3
Jul	2	0	2	2	1
Aug	0	1	0	2	1

Monthly leads · paid vs all other sources

Data coverage notes

- D1 database is the verified lead record; Google Ads' own conversion column reads 0 (tracking broken since restart)
- Beat Boutique's own-site bookings go to email via Formspark and are **not counted here**
- GA4 excluded — current Google credential lacks the Analytics API scope
- Ads were live 13–25 Aug only; Jun/Jul paid-lead volume was funded by cash spend (paused 11 Jul)
- One ChatGPT-referred enquiry in Aug — first recorded lead from an AI assistant surface

August detail — 5 leads: 1 Google Ads · 1 organic · 1 ChatGPT referral · 2 direct. The Ads lead and the ChatGPT referral are the **same returning couple** (partner submitted the second form) → 4 unique prospects.
